## 1. PRODUCT DESCRIPTION/APPLICATION

HY.GIENE HANDS is a thick anti-bacterial hand sanitiser that kills germs on the skin. It contains 73% v/v ethyl alcohol, which reduces the level of germs on the skin safely and effectively.

- No water needed. Just apply and rub it in.
- HY.GIENE HANDS leaves the hands soft and refreshed
- HY.GIENE HANDS is antibacterial
- Rinse-free and non-sticky

Transient germs – those that are picked up on your hand by making contact with other people or surfaces – sometimes cause illness. Washing your hands with soap and water removes these germs. HY.GIENE HANDS kills transient germs and is an excellent option if soap and water are not available.

For Use On...HY.GIENE HANDS is a sanitiser for the hands. It is especially important to practise good hand hygiene

## 2. METHOD OF USE

Application

- Use HY.GIENE HANDS properly by following the directions on the label:
- Wet the hands with about ½ teaspoon of HY.GIENE HANDS, then rub the hands together vigorously until they are dry.
- Children should be supervised by an adult when using HY.GIENE HANDS.
- If the hands are visibly dirty, use soap and water to clean them first.

Never light a cigarette or expose the hands to flames or sparks when using HY.GIENE HANDS. It is flammable and could catch fire.
