CONTAINS: Bronopol 2.0 g/L

2. DESCRIPTION

“LIQUID HAND SOAP” is manufactured using gentle cosmetic detergents and lanoline moisturisers. Also incorporated is the well known active ingredient - ‘OPP’ - “which helps eliminate unwanted bacteria from the skin”.

“LIQUID HAND SOAP” is pH balanced – your skin has a natural, slightly acidic moisture layer which inhibits the growth of harmful bacteria. Typical alkaline soap products destroy this layer, leaving skin feeling dry.

“LIQUID HAND SOAP” is ideally suited to cleaning hands in food preparation operations, restaurants, farms, garden nurseries, child care centres, bathroom amenities, and great for use around the home.

3. DIRECTIONS FOR USE

Wet hands and apply one pump of “LIQUID HAND SOAP TYPE A” and lather well for 60 seconds. Rinse hands well with clean water and dry with fresh paper towels or air dryer.

4. HEALTH AND SAFETY

HAND & SKIN CARE:

After washing, rinse and dry hands thoroughly. Discontinue use if a rash or irritation occurs.

NOT classified as hazardous according to the criteria of Worksafe Australia.

Risk: None allocated.

Safety Directions: None allocated.

FIRST AID:

If poisoning occurs contact a Doctor or Poisons Information Centre (Australia phone 131126).

For more information, the Material Safety data Sheet is available for this product.
