## 1. PRODUCT DESCRIPTION/APPLICATION

Laundry & Kitchen Soaker is a white powder containing oxygen bleach for destaining in the laundry or kitchen. Laundry & Kitchen Soaker is a very versatile product which can remove tannin from coffee and tea cups, wine, fruit juice and other stains from laundry, and is effective for soaking soiled nappies.

## 2. METHOD OF USE

In the kitchen, use about

1% strength (2 teaspoons per litre) for destaining. Soak items for 1 hour then rinse.

In the laundry, add 1 to 2 teaspoons to a domestic machine, add ¼ cup per 25kg in a commercial machine. Laundry & Kitchen Soaker works best in warm to hot water. Do not use on wool or silk.

For nappy soaking, use an 1/8 cup in a 10lt bucket with up to 5 nappies, or ¼ cup in 20lt bucket with up to 10 nappies.

## 3. TECHNICAL DETAILS

Laundry & Kitchen Soaker is an alkaline powder containing water softening agents, alkaline builders, non-ionic detergents and an oxygen bleach.

Laundry & Kitchen Soaker contains 5% available oxygen.

Spot test before use. Not suitable for use on: wool, silk, leather and non colourfast dyes such as denim. Do not soak garments with zips or metal buttons. Do not soak whites and colours together. For best results, remove any residue, sponge up any excess liquid and treat stains as soon as possible to prevent setting. Some stains may require longer or stronger or additional treatments, start at a lower concentration and build up as required. Reseal container after use.

## 4. PACKAGING

Laundry & Kitchen Soaker is packaged in 5kg, 10kg & 20kg buckets.

## 5. SAFETY
