

DATE OF ISSUE: November 2016**Company:** HY.GIENE Australia Pty Ltd**Address:** Unit 3, 41 Gatwick Rd, Bayswater North Vic 3153 Australia**Telephone:** (03) 9 729 3946**Email:** sales@hygieneaustralia.com.au

1. SPECIAL FEATURES

- Broad spectrum biocidal activity against both gram positive and gram negative organisms.
- Better disinfectant performance at lower use concentrations.
- Greater hard water tolerance sanitising activity at lower use levels.
- Superior organic soil tolerance.

2. DESCRIPTION

SANI.GIENE is a complex blend of quaternary ammonium compounds. Its superior germicide activity when compared to conventional quat based sanitisers combined with its "no rinse" properties provide the complete sanitising program.

3. DIRECTIONS FOR USE

SANI.GIENE is specifically used as the final rinse sanitiser at the end of the standard wash program.

SANI.GIENE is used at a dose rate of 200:1 to provide 150ppm of active quat.

At this concentration it has F.D.A. clearance to sanitise without the requirement of a potable water rinse.

SANI.GIENE can be applied by spraying, fogging or mopping onto the required surface.

4. HEALTH AND SAFETY

For more information, the Material Safety data Sheet is available for this product.

FIRST AID:

If poisoning occurs contact a Doctor or Poisons Information Centre (Australia phone 131126). In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

5. PACKAGING

- ◆ 5 litre Polyethylene drum – Product Code: 11005
- ◆ 15 litre Polyethylene drum – Product Code: 11020
- ◆ 3x5 litre Polyethylene drum – Product Code: 11005B
