

PRODUCT: SPA.GIENE

DATE OF ISSUE: November 2016

Company: HY.GIENE Australia Pty Ltd

Address: Unit 3, 41 Gatwick Rd, Bayswater North Vic 3153 Australia

Telephone: (03) 9729 3946 **Email:** sales@hygieneaustralia.com.au

1. PRODUCT DESCRIPTION/APPLICATION

SPA.GIENE is a wide spectrum anti-microbial product. The base quaternary ammonium component is of the highest grade available. It is designed to effectively and hygienically clean the entire surface, pipes and pump system of spa baths, hydrotherapy baths, hydro baths, whirlpool baths and spa pools. Spa baths have no filtration and just circulate the water through unprotected pump and pipes. SPA.GIENE breaks down and dislodges the body fat, hair, organic matter and biological waste from the pump system. The use of SPA.GIENE eliminates the harmful bacteria PSEUDOMONAS AERUGINOSA - a major cause of infection from 'DIRTY' spa baths. Recommended for use in disaster relief cleaning and disinfection

2. METHOD OF USE

Fill the spa bath to 2-3cm above the jets with cold or hot water (hot is preferred). Add 50ml SPA.GIENE to every 200lt of water. Foaming will occur. Turn on pump and run for 3-5min. Empty and rinse clean, using a clean cloth.

Spray & Wipe surface cleaning of the spa bath should only be done using SPA.GIENE spray bottles. Do NOT use any other chemical in the spa.

Refer to SPA.GIENE spa bath cleaning training video which is available from the SPA.GIENE website and on YouTube (SPA.GIENE training video).

Spa Pools: for degreasing and clarifier - 50ml per 200lt spa water. Please refer to instructions for use.

3. TECHNICAL DETAILS

SPA.GIENE contains 80g/l quaternary ammonium compound together with a blend of non-toxic solvents, stabiliser and activator for effective cleaning.

4. PACKAGING

- ◆ 5 litre Polyethylene drum – Product Code: 20105
- ◆ 3x5 litre Polyethylene drum – Product Code: 20105B
- ◆ 15 litre Polyethylene drum – Product Code: 20120
- ◆ 200 litre Polyethylene drum – Product Code: 20102

5. SAFETY

A. CLASSIFICATION

Poisons Schedule Number: NOT CLASSIFIED

Dangerous Goods: NOT CLASSIFIED

B. USAGE

Use in a well ventilated area. Avoid contact with skin and eyes. If skin contact occurs wash off with water. Material Safety Data Sheets are available on all HY.GIENE products. Please make sure the current issue is available and read before using the product.

6. ENVIRONMENTAL INFORMATION

SPA.GIENE contains biodegradable detergents. The quaternary ammonium compound will be deactivated by soaps and detergents in septic and water treatment systems.
