

Kitchen Care Food & Beverage Hospitality

Restaurants Cafes & Retail Food

Food is a business.

To protect public health, cleaning products for use in retail food service areas must be of premium quality. Food service cleaning is a life and death matter for suppliers and the food business operators.

HY.GIENE provides the ultimate rationalised range of cleaning products and equipment to cater for all kitchens and beverage areas, including cellar door, and exceeds all O.H & S. requirements.

HY.GIENE Australia is an experienced hygiene partner to full-service and quick service restaurants, cafeterias, movie theatres and virtually any other establishment that makes food a part of its customer offering.

Our success isn't just based on the fact we promote a premium selection of food-focused products and quality service. It's our unique approach to rationalising chemicals that our customers value most about us.

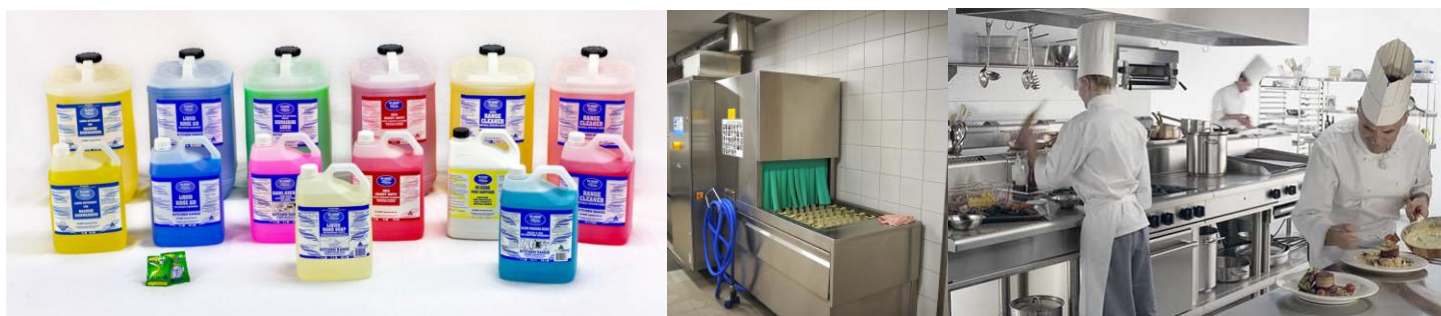

It's also based on the depth of our knowledge of the industry.

HY.GIENE's technicians are trained from day one on the principles and practices of food service sanitation and hygiene. Our team understands HACCP, they know sanitary procedures, they know their products inside out and they work with you to develop and implement a program that addresses your facilities' unique set of needs.

We provide you with a regular hygiene service to our kitchen chemical products, from our warewashing programs to soap, paper and more,

HY.GIENE Australia is the one partner able to meet your full range of needs.
