# ANTIBAC FS – Chlorine free

**ANTIBAC FS** has excellent grease cutting capability on most commercial and industrial surfaces. Included is a hospital strength disinfectant with broad spectrum activity against bacteria and heavy duty cleaning ability. Recommended for cleaning & disinfecting all areas where soiling is of a medium to heavy nature.

- **Hospital Grade Disinfectant**
- **Kills 99.99% of germs** Including salmonella, e.coli, staphylococcus, enterococcus & pseudomonas
- **Powerfully blended** Super concentrated, industrial-strength degreaser/cleaner.
- **Formulated with 'Third Generation' QACs** Resulting in increased biocidal activity and lower toxicity to the end user.
- **Easy** to transport and handle, being it's non dangerous goods (Non DG)
- **A great replacement** for the traditional toxic chlorinated and heavily concentrated caustic
- **Applied** using foaming dispenser or mop & bucket

**PRODUCT: ANTI-BAC FS  
HARD SURFACE DEGREASER CLEANER & SANITISER**

## 1. PRODUCT DESCRIPTION/APPLICATION

**ANTIBAC FS** is a light coloured opaque liquid with no fragrance.

**ANTIBAC FS** has excellent grease cutting capability on most commercial and industrial surfaces. Included is a hospital strength disinfectant with broad spectrum activity against bacteria and heavy duty cleaning ability. Recommended for cleaning & disinfecting all areas where soiling is of a medium to heavy nature.

## 2. METHOD OF USE

Use **ANTI-BAC FS** at a dilution of 1:4 for heavy greasy soils, 1:9 for medium, 1:19 for light. If soiling is very heavy and disinfection is critical, clean first with **ANTI-BAC FS**, then use a fresh solution afterwards to disinfect.

Do not mix with soaps, detergents or other chemicals or deactivation may occur. Suitable for use in foaming applicator and industrial scrubbing machines. Use with our Dema 900.2PU Pump Up Foamer – effective to clean and disinfect stainless steel food processing equipment.

## 3. TECHNICAL DETAILS

**ANTI-BAC FS** contains alkaline builders, Non-ionic surfactant blend, water softening agents and detergents for effective cleaning, plus 1g/l quaternary ammonium compound for disinfecting.

It has a pH of 10.3-10.5 in the neat form.

## 4. PACKAGING

**ANTI-BAC FS** is available in 3x5lt, 15lt & 200lt drums with provision for a tap for easy dispensing in the 15lt drum.

Product code 3x5L: 20320B 15L: 20321 200L: 20322

## 5. SAFETY

### A. CLASSIFICATION

Poisons Schedule Number: NOT CLASSIFIED      Dangerous Goods: NOT CLASSIFIED

### B. USAGE

Use in a well ventilated area. Avoid contact with skin and eyes. If skin contact occurs wash off with water.

Safety Data Sheets are available on all HY.GIENE products. Please make sure the current issue is available and read before using the product.

## 6. ENVIRONMENTAL INFORMATION

**ANTI-BAC FS** contains biodegradable detergents. The quaternary ammonium compound will be deactivated by soaps and detergents in septic tanks and sewage systems.
