

# PRODUCT : SPARKLE RINSE AID

DATE OF ISSUE: November 2016

**Company:** HY.GIENE Australia Pty Ltd

**Address:** Unit 3, 41 Gatwick Rd, Bayswater North Vic 3153 Australia

**Telephone:** (03) 9729 3946 **Email:** sales@hygieneaustralia.com.au

## 1. PRODUCT DESCRIPTION/APPLICATION

### SPARKLE RINSE AID

RINSE AID FOR MACHINE DISHWASHING – Suitable for use in hard water conditions

**SPARKLE RINSE AID** is a drying agent which when added to the final rinse water of glass or dish washing machines, by means of a specially designed feeder, dramatically reduces drying time of washed articles. **SPARKLE RINSE AID** also markedly improves the finished appearance of crockery, glassware and cutlery by eliminating water spotting.

**SPARKLE RINSE AID** is a blue moderately viscous liquid and contains ingredients which, when mixed with water at 60-90°C rapidly lowers the surface tension of water and prevents water from forming droplets on a surface. This product is equally effective in both soft and hard water as it contains a water softener and anti-scaling agents.

## 2. METHOD OF USE

**SPARKLE RINSE AID** is injected into the final rinse water on all machines by the use of highly specialised electronic dosing equipment that injects the correct amount of product each time the rinse cycle is activated. The results obtained with **SPARKLE RINSE AID** are influenced by several factors, these being temperature of the final rinse water, efficiency of the dish washer rinse, residual heat held by the article being washed and the quantity of **SPARKLE RINSE AID** used.

## 3. TECHNICAL DETAILS

**SPARKLE RINSE AID** eliminates the need for manual toweling of washed articles, thus reducing the possibility of spreading pathogenic organisms due to this method of drying.

**SPARKLE RINSE AID** is safe on all metals normally found in the construction of dish washing and glass washing machines.

- Effective in hard or soft water
- Eliminates spotting and streaking
- Safe on metals and plastic-ware
- Economical to use
- Contains an anti-scaling agent

## 4. PACKAGING

- ◆ 5 litre Polyethylene drum – Product Code: 10521
- ◆ 3x5 litre Polyethylene drum – Product Code: 10521B
- ◆ 15 litre Polyethylene drum – Product Code: 10522

## 5. SAFETY

### A. CLASSIFICATION

Poisons Schedule Number: NOT CLASSIFIED      Dangerous Goods: NOT CLASSIFIED

### B. USAGE

Use in a well ventilated area. Avoid contact with skin and eyes. If skin contact occurs wash off with water. Safety Data Sheets are available on all HY.GIENE products. Please make sure the current issue is available and read before using the product.

### SUITABILITY OF CHEMICALS FOR FOOD PREPARATION AREAS

**SPARKLE RINSE AID** is suitable for use in kitchens and food preparation areas

### HEALTH HAZARD INFORMATION:

See separate Health and Safety Data Sheet available on request.
