

## Hot Tub Spa Pool Maintenance

- Regular cleaning (weekly) and scouring of the spa pool, pipes and pump with **SPA.GIENE** is required to eliminate accumulated body fats and organic waste.
- Regular cleaning or backwashing of the spa filter to eliminate build up and prevent clogging of the filter.
- Regular dosage with your bactericide, correct water balance and the weekly application of **SPA.GIENE** to clarify and sanitise the recirculated water by effectively killing bacteria and algae. This will result in clear spa water.

## Spa Pool Directions

Compatible with all other Spa Bactericides i.e.; Chlorine/ Bromine/Salt Chlorinators/Peroxide.

To be used on a regular basis as a pipe degreaser-once a week **IT'S THAT SIMPLE!**

- SPA or HOT TUB to be filled to normal level of use with cold (use existing water).
- Remove filter cartridge (sand r-switch to recirculate).
- Turn on Filter Pump and add **SPA.GIENE** at the rate of 100ml for every 1000L of water.
- Run for a minimum 4 hours. Foaming will occur but will dissipate. You will see areas of brown (body fat). On completion any surplus foam can be scooped and wipe the sides of the spa (surface scum) with a clean damp cloth.
- Replace with a cleaned or new Cartridge Filter or Backwash Sand Filter. The spa can now be used.

## Washing Machines

**SPA.GIENE** is ideal to flush clean the residue that builds up in your Washing Machine.

## Dishwashers

'Flush-Clean' and sanitise your dishwasher with **SPA.GIENE**

- Removes Residue
- Cleans door seals and hinges
- DEODORISES

# SPA.GIENE®

## The World's Most Effective Cleaner for Jacuzzi Spa Baths

[www.hygieneaustralia.com.au](http://www.hygieneaustralia.com.au)

**SPA.GIENE is recognised worldwide as the market leading spa bath/whirlpool Jacuzzi bath cleaner, degreaser and disinfectant.**

Formulated as a wide spectrum antimicrobial product, designed to effectively and hygienically clean the entire surface and pump system of spa baths, hydrotherapy spa baths, auto dishwashers and washing machines, by breaking down and dislodging body fats, hair, foreign organic matter and biological waste from the pump system.

Friendly to the Environment, **SPA.GIENE** is bio-degradable and is the only jacuzzi spa bath cleaner sanitiser which quickly and easily 'flush-cleans' jacuzzi spa baths in hotels, motels, resorts, Day Spas, hospitals or gyms and ensures the removal of unwanted bacterial growth. **SPA.GIENE** also gently polishes acrylic surfaces without tarnishing gold or chrome jets.

Value for money is a number one priority with **SPA.GIENE** which was developed from premium grade ingredients and 'antibacterial properties', to provide customers with the best possible value for every dollar spent on the product.

It also polishes the acrylic surface and unlike other cleaners, **SPA.GIENE** will not tarnish gold or chrome plated jets.

It is chlorine-free, non-toxic, non-dangerous and biodegradable.

A 'How to use **SPA.GIENE**' training video is available from our website and YouTube.

## Spa Baths and Whirlpool Baths

- Fill bath with cold water above the jets.
- Measure 50ml (per 200L of water) of **SPA.GIENE** as directed.
- Turn on all jets and air bubbles and add **SPA.GIENE** to the water
- Run for 3-5 minutes. (If you have an exhaust fan, turn it on during this time). Foaming will occur. You will see areas of brown on the foam (Body fats and hair will show inside or on top of the foam).
- Turn off pump/air and drain the bath.
- Whilst draining the bath, with a pair of gloves on, wipe the excess scum from surface of bath with a damp cloth and rinse with tap running.
- Wipe surface of bath dry with a separate clean & dry cloth. N.B. For baths that are more than two years old and being treated for the first time, it is recommended to flush clean 3-4 times in hot water to eliminate built up grime in pipes.

## General Cleaning For General Household Cleaning

- Dilute **SPA.GIENE** from 1:4 with water (as directed on the bottle) **SPA.GIENE** Multipurpose Cleaner and hard surface disinfectant is a concentrated product suitable for a variety of applications.

### Directions:

Add the suggested measure to the multipurpose bottle and fill with water.

Simply spray / squirt surface area. Wipe clean, then rinse off. For stubborn stains, spray and leave on for a few minutes, then rinse off.
